PROFESSIONAL SUMMARY

Tableau Developer and Data Analyst with 4 years of experience building BI solutions across healthcare, real estate, ed-tech, and enterprise domains. Built and maintained 50+ dashboards used by 40+ stakeholders for operational and strategic decision-making. Core strengths in Tableau, SQL, Power BI, and product analytics including funnel analysis, cohort analysis, and KPI tracking. Track record of reducing reporting turnaround times and improving data-driven workflows.

SKILLS

BI & Visualization: Tableau, Power BI, Excel, Dashboard Development, Data Visualization, DAX
Platforms & Cloud: Salesforce Data Cloud, Data 360, Analytics Studio, Tableau Cloud, Tableau Prep
SQL & Databases: SQL, MySQL, Joins, CTEs, Window Functions, Subqueries, Query Optimization
Analytics: KPI Tracking, Funnel Analysis, Cohort Analysis, Product Analytics, CRM Analytics
Programming: Python (Pandas, NumPy)
Tools: Mixpanel, Google Sheets, Git, JIRA

EXPERIENCE

Kloudrac Group — Tableau *Developer* Aug 2025 – Present

- Developed and maintained 20+ Tableau dashboards across healthcare and real estate domains, used by 35+ business users for daily operational decisions.
- Built hospital CRM analytics suite covering lead conversion, patient funnel analysis, booking revenue, and inventory performance — enabling the sales team to identify 7% drop-off in patient conversion and fix bottleneck stages.
- Created 50+ SQL queries for data extraction, validation, and transformation, reducing manual data preparation time by 18%.
- Delivered demo solutions for “Tableau Next” on Salesforce Data Cloud across healthcare and real estate domains showcasing agentic analytics and AI-driven insights, contributing to 4 new client pitches.
- Improved dashboard load times and usability through calculated fields, parameters, and dynamic filters, reducing average report generation time from 8 minutes to 3 minutes.

Freelance — Data Analyst Sep 2024 – Aug 2025

- Delivered 9 end-to-end analytics projects including data cleaning, dashboard development, and reporting using Tableau and Power BI for clients across 4 industries.
- Built KPI dashboards tracking revenue, retention, and lead conversion metrics, helping clients identify growth trends and leading to 18% improvement in report efficiency.
- Trained 20+ professionals and students in SQL, Tableau, Power BI, and real-world analytics workflows through structured workshops.

Brane Enterprises — Associate *Solution Leader* Jan 2024 – Sep 2024

- Led BI and reporting projects for 2 enterprise clients, owning the full cycle from requirement gathering to dashboard delivery and stakeholder sign-off.
- Reduced reporting turnaround time by 25% through reusable SQL templates, workflow optimization, and reporting automation.
- Collaborated with cross-functional teams (engineering, product, operations) to standardize KPI definitions and build a shared analytics framework used across 3 departments.

TutorBin — Product *Analyst → Subject Matter Expert* Jun 2022 – Dec 2023

Product Analyst (Sep 2023 – Dec 2023)

- Analyzed user behavior and customer journeys using Mixpanel, identifying 22% drop-off at onboarding stage and recommending UX changes that improved feature adoption by 15%.

- Built dashboards tracking DAU (12K+), retention (30-day), conversion rates, and feature adoption metrics for product and leadership teams.
- Performed funnel and cohort analyses that directly informed product decisions, contributing to a 17% increase in user engagement over 3 months.

Subject Matter Expert (Jun 2022 – Sep 2023)

- Mentored 100+ students and professionals in Statistics, SQL, Power BI, Tableau, and analytics concepts, achieving a 92% satisfaction rating.
- Created 35+ analytics case studies and educational content used in the platform's learning curriculum.
- Managed a team of 6 interns, improving team output by 30% through structured mentoring and weekly review cycles.

PROJECTS

Pharmacy Sales Dashboard | Tableau, Excel

- Built an interactive Tableau dashboard for pharma sales managers tracking field rep performance, doctor engagement, and sales outcomes across 8 analytical views. Analyzed effort-vs-output efficiency, target achievement by rep, leave impact on field coverage, and call duration vs outcome quality. Designed with business-question-driven layout and contextual tooltips.
  GitHub | Live Dashboard

Business Insights 360 | Power BI, SQL, DAX, Excel

- Developed a multi-view Power BI dashboard (Finance, Sales, Marketing, Supply Chain, Executive) for AtliQ Hardware, a consumer electronics company operating across 27+ markets via retail, direct, and distributor channels. Analyzed 1M+ transaction records with a star-schema data model, enabling stakeholders to track net sales, gross margin %, and forecast accuracy in a single platform replacing multiple Excel reports.
  GitHub | Live Dashboard

Sales & Finance Analytics | Excel, Power Query, Pivot Tables

- Created customer performance and market-vs-target reports using Excel with Power Query and pivot tables for AtliQ Hardware. Built P&L statements by fiscal year, month, and market across 15+ markets and 200+ customers, enabling finance teams to benchmark performance, plan budgets, and identify high-growth regions for expansion.
